# THE SNI IMPACT CYCLE

How we create institutional improvement.

**SNI**
**GLOBAL CONSULTANCY**

01

## UNDERSTAND

**Know the Institution**

We begin by understanding the school's context, priorities, aspirations, existing practices and institutional needs.

02

## DIAGNOSE

**Identify What Matters**

We examine capability gaps, process gaps, academic needs and areas requiring focused intervention.

03

## DESIGN

**Build the Right Solution**

We develop practical interventions, learning programmes, systems, frameworks and action plans aligned with the institution's needs.

04

## IMPLEMENT

**Turn Plans into Practice**

We support educators and school teams in translating learning, recommendations and standards for practical school-level action.

05

## REVIEW

**Measure Progress**

We review implementation, examine effectiveness, identify strengths and recognise areas that require further attention.

06

## EVOLVE

**Strengthen & Sustain**

We refine practices, strengthen systems and support continuous improvement so that progress becomes sustainable.

# SNI ASSESSMENT FOR YOUNG MINDS

MEASURE
UNDERSTAND
THINK
GROW

## Where Assessment Becomes an Opportunity to Learn, Think and Grow.

Assessment is an important part of a learner's educational journey. It can do more than measure performance, it can help learners **understand** concepts, **apply** knowledge, **recognise** their strengths and identify opportunities for **growth.**

BOF conducts assessment in 2 levels:
**Level-1:** OMR based exam (All Subjects)
**Level-2:** Online exam (English, Mathematics, Science & General Knowledge)

# BHARAT OLYMPIAD FOUNDATION

## Competency-Based Assessment for Young Minds

Registered under Ministry of Corporate Affairs, Govt. of India

Through Bharat Olympiad Foundation, SNI extends its commitment to young learners by providing structured opportunities for students to participate in subject-based Olympiads and competency-oriented assessments.

# BEYOND REMEMBERING

## Assessment that encourages understanding, application and thinking.

Meaningful assessment should reveal more than what a student can remember. It should provide opportunities to understand concepts, apply knowledge, reason through problems and respond to unfamiliar situations. BOF's competency-based assessment approach creates structured opportunities for learners to demonstrate what they know and how they use what they know. In this way, assessment becomes connected to learning—not simply a measure at the end of it.

### RESPOND
Demonstrate thinking.

### REASON
Connect and analyse.

### APPLY
Use knowledge.

### UNDERSTAND
Make meaning.
